

Chubb Fire and Weber Rescue Systems Announce Distributor Partnership

July 1st, 2016

Chubb Fire & Security Pty Ltd is pleased to announce an exclusive Australian distribution agreement with Weber Hydraulik (Weber Rescue Systems), a global leader in the development and manufacture of hydraulic rescue systems and battery rescue equipment.

With a long and proud history providing firefighting and rescue products and services to the Australian emergency services industry, Chubb's partnership with Weber Rescue Systems continues this tradition and brings exciting new technologies to Australia.

'Weber's products are globally renowned for their high performance and outstanding reliability,' said Dave Marven, Chubb Fire Managing Director. 'Chubb's experience and national network of branches, when combined with Weber's leading edge equipment, will offer great value and quality to our emergency services customers'.

Franz Linner, Weber Rescue Systems Area Sales Manager, commented "We believe our rescue tools are the right solution for the rescue industry in Australia. We are excited to work with Chubb Fire who has the most experienced sales and service personnel in the emergency services industry'.

For more information about Weber Rescue Systems, offered by Chubb Fire & Security, or to organize a product demonstration of Weber's hydraulic and battery tools, please contact Chubb on [1300 550 574](tel:1300550574) or email CSProducts@chubb.com.au.
